STATEMENT OF OBJECTS AND REASONS

The Brahmaputra, which is one of our major rivers, causes extensive flood damage in its valley particularly in Assam. The floods affect vital communications and public utilities. Further, there is the problem of erosion by the river which threatens important areas and towns. The speedy implementation of effective flood control measures in the Brahmaputra Valley is of utmost importance for the development of the North-Eastern Region and assumes special significance in the light of our friendly relations with Bangla Desh where also this river causes serious flood damage.

- 2. At present, the planning and implementation of flood control measures in the Brahmaputra inter-State river valley is the responsibility of a three-tier organisation, consisting of (i) the Brahmaputra Flood Control Board; (ii) the Brahmaputra Flood Control Commission; and (iii) the Board of Technical Consultants, for planning, execution and maintenance of flood control and anti-erosion measures in the Brahmaputra Valley in Assam. This organisation was set up pursuant to a decision taken in May, 1970. The Brahmaputra Flood Control Board, which functions as a policy-making body, was set up by the Central Government. The Brahmaputra Flood Control Commission which is in charge of preparing and implementing the comprehensive plans of flood control, and the Board of Technical Consultants, which is charged with the responsibility of advising the Commission on all technical matters relating to planning, designing and execution of works, were set up by the Government of Assam.
- 3. The Government of Assam have been repeatedly representing that tackling the problem of the Brahmaputra river and its tributaries is beyond their resources on account of the magnitude and complexity of the problem and that as such, the responsibility for planning and execution as well as for maintenance of flood works in the river valley should be taken over by the Central Government. Although the planning and implementation of the flood control works in the valley is the responsibility of the State Governments concerned, after a careful consideration of all the aspects of the matter it has been decided that the Central Government should take over a part of this responsibility. It is, therefore, proposed to provide for the establishment of a Board called the Brahmaputra Board and to make it responsible for preparing a Master Plan of flood control in the Brahmaputra Valley, detailed project report and estimates of schemes and standards and specifications for the execution of works and their maintenance. It is also proposed that the Board would undertake construction, operation and maintenance of multi-purpose projects, subject to the condition that the State Governments concerned agree to the sharing of cost and maintenance of the project in the proportion indicated by the Board. The Board can also take up construction of flood control works and maintain them for such period after completion as may be necessary, subject to the condition that the land required for such works will be made available free of cost by the State

Government concerned and the maintenance would be taken over by the State Government as and when the Board decides. It is proposed that all other works advised by the Board will be implemented by the State Governments concerned and financial assistance will be provided by the Central Government directly or through the Board to meet the expenditure on the schemes, excluding the cost of land and regular establishment.

4. The Bill seeks to achieve the above objects.

FINANCIAL MEMORANDUM

Clause 4(1) of the Bill provides for the establishment of the Brahmaputra Board. Clause 4(3) provides for the composition of the Board while clause 5 provides that the conditions of service of the members of the Board shall be prescribed by rules. Clauses 7 and 8 respectively provide for the appointment of a General Manager and a Financial Adviser by the Central Government and leave their terms and conditions of service to be provided by rules. Clause 9 provides for the appointment of two Chief Engineers and the Secretary to the Board by the Central Government and for the appointment of other officers and employees by the Board. The conditions of service of the General Manager and Financial Adviser are to be such as may be prescribed by the rules while those of the Secretary and other officers and employees are to be such as may be determined by regulations. Clause 10 provides for the constitution of Advisory Committees by the Board. Clause 12 enumerates the functions of the Board and clause 13 empowers the Board inter alia to construct flood control drainage works, such as multi-purpose dams. Clause 17(2) makes provision for providing financial assistance to the States concerned for the execution of works advised by the Board. Clause 23(3) makes provision for the appointment of an arbitrator for the settlement of any dispute arising between the Board and any State Government.

- 2. The aforementioned provisions of the Bill will involve expenditure towards meeting—
 - (a) the salary, allowances and other remuneration of the members of the Board and of various officers and other employees as provided by rules and regulations;
 - (b) the other administrative expenses of the Board;
 - (c) the expenditure on surveys and investigations undertaken by the Board;
 - (d) the cost of construction, operation and maintenance of the works undertaken by the Board; and
 - (e) assistance to State Governments for implementation of works routed through the Board.

Such expenditure has to be met by the Board from out of the Brahmaputra Board Fund provided for in clause 19. This fund will consist of sums paid to the Board by the Central Government or by any State Government and all other sums received by the Board. The intention is that funds (other than those to be provided by the State Government) will be provided for by the Central Government in pursuance of clause 18. The provisions of the Bill thus involve indirectly expenditure from the Consolidated Fund of India. It has been made clear in clause 18 that the Central Government may pay to the Board any

sums of money only after due appropriation made by Parliament by law in that behalf.

3. It is not possible at this stage to precisely visualise the expenditure involved, since that will depend upon the nature and magnitude of the flood control measures which the Board may undertake or advise the States to undertake. The measures which are to be undertaken can be determined only after the Board completes its investigations and surveys and prepares a Master Plan for the Brahmaputra Valley, as envisaged in clause 12(1). Further, the time of execution of different works will depend upon the priorities which may be allotted to the various works and the funds which can be made available for the works. However, it is estimated that funds to the extent of Rs. 11.5 crores per year on an average will be required in the first five years after the establishment of the Board to enable the Board to discharge its functions effectively and also to make satisfactory progress on the flood control works in the Brahmaputra Valley. This will cover an estimated expenditure of Rs. 10 lakhs a year on the administrative organisation of the Board and the balance Rs. 11.4 crores for surveys, investigations and works to be undertaken by the Board and the assistance to be provided to the State Government under clause 17(2). The aforementioned expenditure of Rs. 11.4 crores a year will include establishment charges on the field organisation under the Board and about Rs. 20 lakhs a year on an average on the maintenance of completed works undertaken by the Board. The Board is expected to start functioning from 1979-80. The recurring and non-recurring expenditure will be about Rs. 0.4 crores and Rs. 11.1 crores respectively on an average per year.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 28 of the Bill seeks to empower the Central Government to make rules to carry out the purposes of the Act. The matters in respect of which rules may be made relate inter alia to the term of office of members, the conditions of service of the Chairman and the Vice-Chairman of the Board, the terms and conditions of service and the powers and duties of the General Manager of the Board, the manner in which and purposes for which the Board may constitute a Standing Committee, the manner in which and the conditions subject to which the Board may exercise its functions, the form in which and the time when the Board shall prepare its budget and its annual report, the manner in which the accounts of the Board shall be maintained and audited and other matters of procedural or administrative nature.

- 2. Clause 29 of the Bill empowers the Board to make regulations not inconsistent with the proposed legislation and the rules made thereunder for carrying out the purposes of the Act. Such regulations may provide, inter alia, for the manner in which and the purposes for which the Board may associate with itself any person, the powers and duties of the General Manager of the Board which may be determined, and the terms and conditions of service of the Chief Engineers, the Secretary and other officers and employees of the Board.
- 3. The matters in respect of which rules or regulations may be made under the aforementioned provisions pertain to procedure or administrative detail and as such the delegation of legislative power under these provisions is of a normal character.

S. S. BHALERAO,
Secretary-General,
